EXPERIENCE

Intern Full-Stack Software Developer

Popular Seguros | San José, Costa Rica

March 2025 – January 2026

Key Achievements:

- Collaborated in the design, development, and maintenance of the system Core KADSI and the system project (FCSE) at Popular Seguros, working with the development, QA, and Infrastructure teams to implement efficient and scalable improvements.
- Led the development and evolution of the FCSE system, managing tasks and collaborating with the team to ensure high-quality deliverables. Optimized query performance, achieving a significant reduction in response times and resource usage, which improved the system's efficiency and scalability.
- Developed solutions using microservices, WebSockets, messaging queues (Azure Service Bus), Cosmos DB, storage management (Azure Blob Storage), Container Registry, and contributed to technical documentation of the KADSI and FCSE projects. Development with C# .Net Core 8 and Entity Framework, handled migrations, and React, applying best practices such as SOLID, Clean Code, DRY, and styles with SASS.

Front-End Developer

IDESPO | Heredia, Costa Rica

February 2023 – June 2024

Key Achievements:

- Designed and developed responsive, consistent, and accessible interfaces using React, CSS, and Bootstrap, optimizing navigation and usability.
- Enhanced user experience by optimizing interface design, ensuring smoother and more engaging interactions.
- Implemented solutions focused on usability and performance, reducing errors and improving platform accessibility.

Educational Technology Administrative Assistant

Santillana S.A | San José, Costa Rica

November 2022 – February 2023

November 2023 – February 2024

Key Achievements:

- Managed and configured educational platforms, impacting more than 10,000 students across multiple private schools in 3 countries, ensuring smooth operation and data integrity.
- Optimized mass access to academic information (classes, groups, students, spreadsheets, and reports) to improve efficiency in data management and analysis.

- Collaborated with regional teams in Nicaragua, Panama, and Costa Rica to ensure compliance with institutional guidelines and standardize technological processes.
